

## Abstract submission

The scientific programme of the 18<sup>th</sup> European Congress of Internal Medicine (ECIM) includes Original Research and Case Series, Case Reports and Medical Images.

The organising committee encourages all members and interested colleagues in the field to share their experience by presenting and discussing results of **experimental projects, clinical studies** and interesting **case reports or images**. ECIM gives young professionals, along with experienced ones, an excellent opportunity to present their research to an interested and knowledgeable audience.

Based on the content and quality of the abstracts, the scientific committee of the meeting will decide upon acceptance/rejection of the abstract as an ePoster. The abstract submission will be exclusively managed electronically through this website. Information about acceptance will be sent by email. To upload your work, please make use of the upload link at the top of this page.

The ePosters will be displayed digitally in terminals during the entire congress; the best rated ePosters will be presented and discussed during the congress.

## Submission deadline: April 30, 2019

### **1<sup>o</sup> link: Guidelines for abstract submission**

The conference language is English.  
Submit your abstracts via the online link.  
Abstracts submitted via fax, e-mail, post, or other methods will not be accepted.  
The abstract and authors' institutes have to be indicated in English.

The structure of the abstract for **Original Research and Case Series** should be as follows: title, background, methods, results, conclusion.  
If submitting **Case Reports**, the structure should be as follows: title, introduction, case description, discussion.  
Abstract titles should be concise and direct, maximum length 150 characters.  
Abstract should not contain tables, graphs, pictures and text should not exceed 2500 characters.

For submitting **Medical Images**, presentation of pedagogical images (an image or an articulated set of images), coupled with a brief clinical summary is required, with a maximum of 800 characters.

For accepted abstracts, registration and participation in this conference are binding. Therefore please register yourself online.  
Abstracts will be accepted until **April 30, 2019**.  
Authors will be notified of acceptance on May 30, 2019 by email.

Please formulate clearly and concisely the aims, methods results and conclusions of each abstract.

Avoid using non-standard abbreviations.

Do not use the title or the name(s) of the author(s) in the body of the abstract.

The abstracts submission will entitle to electronic poster (ePoster) presentations.

### **Contents and format**

Please structure your abstract for **Original Research and Case Series** using the following headings:

- Objectives
- Methods
- Results
- Conclusion

If submitting **Case Reports**, please use the following headings:

- Introduction
- Case description
- Discussion

If submitting **Medical Images**, the following rules apply:

- Image or an articulated set of images
- Clinical summary as a subtitle
