The amniotic fluid microbiome (20')
Neonatal colonization with maternal flora (20')
Maternal immunization for mothers and offspring: pertussis & more (20')
Discussion (10')
- 10:00-10:30h Coffee break
- 10:30-12:00h **SESSION 3 Obstetrical infections & infections in obstetrics**
Zika and other exotic infectious treats (20')
CMV management update (20')
Early diagnosis & management of chorioamnionitis (20')
Respiratory tract pathogens causing genitourinary infections
(and vice-versa) (20')
Discussion (10')
- 12:00-13:30h **Lunch symposium**
- 13:30-15:00h **SESSION 4 Vulvovaginal infections – I**
The immunologic understanding of vaginal infections (20')
Trained immunity applications (20')
Teaching impact on diagnostic performance (20')
Non-infective vulvovaginitis (20')
Discussion (10')
- 15:00-15:30h Coffee break

15:30-17:00h **SESSION 5 Vulvovaginal infections – II**

The resistant candidosis (20')

Environmental explanations & mechanisms for *Candida* spp resistancy (20')

Vaginal atrophy and AV (20')

Vulvovaginitis diagnosis biofilms – Structure and possible therapeutic options (20')

Discussion (10')

■ **SATURDAY, NOVEMBER 02ND**

08:00h Opening of registration desk

08:30-10:00h **SESSION 6 Large broad**

The human microbiome translated into clinic (20')

Vaginal microbiome and metabolites in infertile couples (20')

Tumoral viroma (other than HPV) and vaginal microbiome in women of reproductive age (20')

Probiotics profile is changing: From supplements to devices to pharma drugs (20')

Discussion (10')

10:00-10:30h Coffee break

10:30-12:00h **SESSION 7 Infections & their prevention**

Partner tracing of STIs (20')

The STI strategy in view of fast-sex app (20')

Probiotics in BV/AV (20')

Probiotics for candida vulvovaginitis? (20')

Discussion (10')

03rd ISIDOG Congress

12:00-13:30h **Lunch symposium** MEDINOVA

13:30-15:00h **SESSION 8 Technological developments**

HPV methylation testing as a diagnostic tool (20')

Modulating the vagina as route for drug delivery (20')

Speeding the answer in antibiotic susceptibility testing (20')

Electronic devices for POC diagnosis of infections:

“eNose” and “eTongue” (20')

Discussion (10')

15:00-15:30h Coffee break

15:30-17:00h **SESSION 9 Free communications & Posters discussion**

■ SUNDAY – NOVEMBER 03RD
