DESCRIÇÃO: Curso teórico-prático para não anestesistas sobre abordagem das vias aéreas.

DESCRIPTION: *Theoretical-practical course for non-anaesthetists on the airway approach.*

OBJETIVOS: Reconhecer situações difíceis na abordagem da via aérea em diferentes contextos clínicos: urgência pré-hospitalar e hospitalar, urgências, bloco operatório e unidades de cuidados intensivos. Conhecer e manusear os diferentes dispositivos de abordagem das vias aéreas dependendo do contexto clínico. Fornecer ferramentas para uma abordagem segura e em equipe das vias aéreas. Compartilhar experiências e discutir casos clínicos.

OBJECTIVES: *To recognise difficult situations when approaching the airway in different clinical contexts: pre-hospital and hospital emergency, emergency room, operating theatre and intensive care units. Know and handle the different airway approach devices depending on the clinical context. Provide tools for a safe, team approach to the airway. Share experiences and discuss clinical cases.*
